- 5. The work schedule for employees assigned to a forty (40) hour work week shall be established by the Fire Chief. A 30-minute paid, working lunch period shall be established at the Chief's discretion.
- 6. For employees assigned to the 24 hour work day, the employee's hourly rate of pay for purposes of overtime compensation and the calculation of benefits paid on an hourly basis shall be computed by dividing the bi-weekly wage by 106. The City's hourly rate of pay for employees working a forty (40) hour per week work schedule shall be computed based on a forty (40) hour work week.
- 7. One firefighter (with least seniority) shall be assigned to the position of roving firefighter. This position has the duties and responsibilities of a firefighter and is differentiated by the work hours assigned. A firefighter assigned to the roving position shall not have a permanent work cycle, but said schedule shall be assigned by the Fire Chief or his designated representative. Shift changes shall be presented to the roving firefighter five days prior to assignment. The rover assignment will continue for as long as the number of positions assigned to the firefighter rank is not evenly divisible by three (3).

OVERTIME

For all time worked in excess of those regularly scheduled, payment shall be at the rate of one and one-half (1 ½) times the regular hourly rate as shown on the pay scale in Appendices A through C. When an employee is recalled to work outside his regularly scheduled shift, he shall be paid for a minimum of two and one-half (2 ½) hours at the rate of time and one-half, or double time when such recall occurs on a holiday. This shall not be interpreted as including a temporary readjustment of shift hours. Employees who are held over at the end of their shift so that they are working on the holiday shall also be eligible for pay at the double time rate for all time worked on the holiday.

The parties recognize that the overtime standards of the F.L.S.A. are different from this contractual provision. Examples of how the F.L.S.A. is applied to Fire Union employees is contained in Appendix D of this contract.

Employees are expected to work overtime when conditions necessitate.

Overtime Call Out

Except in cases of emergency, as determined by the Employer, overtime offered to the employees covered by this agreement shall be done in accordance with this article and Fire Department Standard Operating Procedure #114 "Overtime Callback". No revisions to SOP #114 shall be made without both parties to this agreement signing off approving the revision.

The Fire Department administration shall maintain a separate overtime list for each shift for the rank of Firefighter, Engineer, and Captain with names of employees who wish to be called for overtime assignment. The Fire Department Administration shall also maintain separate overtime lists for Paramedic (PM) and EMT/AEMT for each shift for overtime callback for "Special Events".

"Special Event" overtime is overtime used for the purpose of providing standby medical services for events such as high school football games and concerts. The personnel requirements for these events are driven by certifications such as Paramedic or EMT/AEMT status as opposed to rank such as Captain and Engineer.

Special Event Example: RAGBRAI could require overtime call out from 2 overtime lists; medical services would come from the Special Events list and fire protection services would be called from the normal overtime list.

Instead of calling each member on the special events list, the on-duty assistant chief may send a text to the appropriate shift informing them of the event, place, and time, and the first to call or text back to confirm their availability to work the event will be awarded the overtime regardless of their order on the list.

All employees being paid for a Paramedic certification shall be placed on the Paramedic overtime list for their respective shift. Only employees on the Paramedic overtime list will be

eligible for overtime assignments requiring Paramedic certification.

Overtime assignments will be made in such a way that employees have at least twelve (12) hours off duty before the overtime assignment and twelve (12) hours off duty before reporting for their regular duty or another overtime assignment. Personnel working trade time are subject to the same twelve hours off duty conditions, i.e. personnel could not work trade time and overtime back to back that would result in a work period of more than 24 hours. This requirement shall not apply to personnel being held over until an overtime replacement reports for duty, to personnel assigned training or prevention duties or to emergency callback. The twelve (12) hours is exempt for special events. Employees shall be offered overtime in the following order:

- 1. The eligible employee highest on the appropriate list who can be contacted shall be offered the assignment. While this employee may turn down the overtime assignment, this employee shall be required to work the assignment should all other employees on the list not answer or turn down the assignment.
- 2. If the highest eligible employee turns down the overtime assignment, all other employees on the appropriate list will be called in the order in which their name appears on the list.
- 3. If all employees on the appropriate list cannot be contacted, the list for the next lower rank will be used following the procedures described in paragraph 1 or 2 above. If the vacancy is for a firefighter, the list used will be for the next highest rank.
- 4. Employees on an overtime list who are not qualified for an overtime assignment shall be passed over and noted on the list as not qualified for the assignment.

In the event that an error is made in the call out procedure, the name of the employee(s) affected shall not move and the employee(s) shall be called for the next applicable overtime assignment. All agreements to the contrary notwithstanding, the Chief or his designated representative shall have the authority to order to work any employee when required to ensure the provisions of necessary service.

ARTICLE 7

ACCESS TO RECORDS

Employees shall have access to their own personnel records upon request during normal City Hall working hours.

ARTICLE 8

SENIORITY

The seniority of employees covered by this agreement is set forth under the provisions of Section 400.12 of the Iowa Code.

Applicable only to employees previously covered by CWA Ambulance Contract

Employees who were previously civilian ambulance employees will be credited with seniority equal to seniority held under the CWA Ambulance contract for the purposes of determining sick leave eligibility, the vacation accumulation rate, and placement on the pay plan. For all other purposes (i.e. vacation bid rights, longevity, placement on the overtime lists) seniority in the bargaining unit shall begin with the date they are hired into the newly established firefighter/Paramedic Specialist rank. In regards to lay-offs, civil service regulations shall control.

However, once such a request is approved, the employee shall no longer be eligible for any additional payment under Section 1 over and above the payment being received as of the date approval of such a request is given. The employee shall be eligible to continue any payment in effect at the time the approval is made.

In addition to the tuition reimbursement described in this section the cost of required books shall also be eligible for reimbursement.

ARTICLE 12

The employee substituting shall be responsible to work the scheduled day. If the substituting employee is unable to work the trade day for any reason, the substituting employee shall be responsible for reimbursing the City the full overtime wage cost incurred by the City in obtaining a replacement for him. Should the employee who requested the trade be unable to work the agreed repayment trade day, this employee shall be responsible for reimbursing the City the full overtime wage cost incurred by the City in obtaining a replacement for him. However, an employee whose trade time is scheduled for less than an entire work day will not be relieved from duty until the employee who has agreed to substitute arrives to work the trade time.

Once an employee's total accrued vacation is equal to the employee's accrual limit, accrual of vacation will stop. Vacation accrual will resume when the employee has utilized enough accrued vacation to allow for vacation accrual at their regular rate of accrual. Any vacation accruals lost to the employee because of this section are not recoverable by the employee.

Upon separation the maximum number of vacation hours that will be paid upon termination is shown in Section 1, Cash-Out Maximum.

The above provision notwithstanding, all employees hired on or before December 31, 2001 shall be considered "grandfathered" and allowed to accumulate twice their accrual rate in all service periods and cash-out up to twice their annual accrual rate.

Section 15 - Vacation Utilization

Employees will only be allowed to take a vacation when, at the time of the leave, they have adequate accrued vacation to cover the duration of the leave. Should an instance occur where an employee has inadvertently received more vacation leave than the employee has accrued, the amount of vacation used in excess of that accrued will be charged to future accruals. If the employee is terminating, the value of the vacation leave in excess of accruals will be deducted by the City from the employee's final pay check.

The City will convert this additional sick leave accumulation to a cash amount that will be contributed to Nationwide's PEHP plan for Health Insurance Premium Reimbursement on the employee's behalf. If two (2) or more employees apply for the same opening, selection will be made by greatest time in rank of employees who first meet any required special certifications or training for the position. Once the open position is filled, all remaining transfer requests related to that position shall be invalid.

Any employee's request for a transfer may be denied based on the position requiring a special certification or training. Examples of special certifications or training would include but not limited to Paramedic (PM), haz mat technician, and specialized rescue training or certification.

Vacant positions may be temporarily filled by the Fire Chief by transfer or reassignment of personnel with least time in rank until the open position is posted and bid upon, including those transfers needed to equally distribute employees between the three (3) shifts.

Vacant forty hour Captain, Engineer, and Firefighter positions will be posted for employees to express, in writing, an interest in the position. The Fire Chief will give consideration to employees requesting a transfer to a forty-hour position, but reserves the right to place employees in the position other than those requesting a transfer, if the employee does not meet the requirements listed on the posting. If a forty-hour position needs to be filled and no request is received, personnel with the least time in rank shall be involuntarily transferred to that position for no longer than one (1) year. The involuntary transfer will be limited to personnel who have not previously worked in the position.

If the Chief is unable to grant a transfer request he shall provide the employee with a written reason explaining why the transfer is denied.

Involuntary transfers for all ranks shall be based on qualifications and least time in rank regardless of whether the member has bid into their position or not. Bid positions are not immune from movement as shown in example in number 4 below.

Examples of reasons where a transfer request might not be approved include, but are not limited to:

1. Any employee's request for a transfer may be denied based on the position requiring a special certification or training. Examples of special certifications or training would include but not limited to Paramedic (PM), haz mat technician, and specialized rescue training or certification

- 2. To implement staffing changes related to squad rotations and to meet ALS staffing requirements for day to day operations.
- 3. To separate relatives desiring to work in the same station and/or apparatus.
- 4. Where in order for a member to be awarded a bid request, there is not an equally qualified employee with less seniority available to move into the bidding employee's position. Voluntary and involuntary forced movement will not occur to any employee senior to the employee requesting the transfer, provided they are in the same rank. However, a higher ranked employee with less seniority may displace a lesser ranked employee with more seniority through the bid process. An approved bid request may result in an employee being displaced from a previous bid position where the employee has less seniority, in order to satisfy the senior employee's bidding request.

POST EMPLOYMENT HEALTH PLAN

The City shall maintain a Post-Employment Health Plan for employees through Nationwide Retirement Solutions. The City contribution to this plan shall be \$40 per month.

ARTICLE 37

ON-THE-JOB INJURY OR ILLNESS

An employee whose on-the-job illness or injury renders them unable to perform their regular duties may be assigned to a temporary alternative duty assignment if such assignment can be safely performed within the employee's limitations. The City reserves the right to change an employee's regular work schedule to accommodate a temporary alternative duty assignment.

The procedures for administering alternative duty assignments are contained in the Fire Department's SOP manual; SOP #119. No changes will be made to this SOP without mutual agreement by the Fire Department and the Union.

ARTICLE 38

WELLNESS FITNESS ASSESSMENT (WFA)

The WFA offered to the employees on a voluntary basis, and mandatory for return to work as spelled out in the SOP covered by this agreement shall be done in accordance with this article and Fire Department Standard Operating Procedure #309 "Wellness Fitness Assessment". No revisions to SOP #309 shall be made without both parties to this agreement signing off approving any revision.

AGREEMENT

THIS AGREEMENT SHALL CONTINUE IN FORCE TO AND INCLUDING JUNE 30, 2020

In witness whereof, the parties have caused this agreement to be signed by their respective representatives, and their signatures placed thereon, all on this 17th day of February, 2017.

FAIR LABOR STANDARDS ACT AFFECT ON FIREFIGHTERS

The Fair Labor Standards Act (FLSA) became applicable to cities on April 5, 1986. Prior to this time the City had a labor contract with employees which spelled out the regular hours of work, the pay employees would receive for their regular hours of work, and payment for contractual overtime hours. The following is an outline of the information provided to all affected employees explaining how FLSA would affect the contractual provisions. The examples used have been updated to reflect current pay rates and current contractual provisions. The intent of this summary information is to help employees understand pay calculations; it is not intended to make any changes in how pay is calculated.

- 1. Provisions of the FLSA
 - A. Minimum Wage
 - B. Child Labor laws
 - C. Overtime Compensation
- 2. "7k" Exemption for firefighters
 - A. Allows cities to establish a work period that is at least 7 and no more than 28 days
 - B. FLSA sets a 53 hour work week standard
 - C. Council Bluffs Fire Department has established a 28 day work period beginning Saturday at 7:00 a.m. on April 5, 1986
 - D. FLSA overtime provisions for firefighters: time and one-half the "regular rate" for all hours worked over 212 in the 28 day work period.
- 3. In some respects the City's contractual policies on overtime are <u>better</u> than FLSA.
 - A. Overtime is earned for all hours beyond regular shift
 - B. City contract counts paid leave as hours worked, but FLSA only counts the actual hours worked.
- 4. In some respects the City's benefits are less than FLSA.
 - A. The City's overtime threshold is an average of 56 hours a week; the FLSA is 53 hours per week.
 - B. FLSA includes certain forms of compensation as part of the regular rate that the City rate does not include (i.e. longevity, educational benefit, acting pay).
- 5. What is the "FLSA regular rate?"
 - A. It is the true average hourly rate based on the contractual provisions agreed to by the City and Union.
 - B. It is not the same as the City's contractual rate.
 - C. It is calculated each work period.
 - D. The calculation looks like this:

Total compensation paid to the employee ÷ hours worked = FLSA regular hourly rate

- 6. The FLSA provides that some forms of compensation can be excluded from the FLSA regular rate of pay
 - A. Overtime premiums paid pursuant to a collective bargaining provision

Appendix D (page 2 of 5)

- B. Pay for non-work hours (i.e. holiday, sick, and vacation pay).
- C. Premium pay for working on a holiday or call-in pay
- D. Health, life, and retirement benefits.
- 7. In a 28 day period, an employee will normally work either 9 tours or 10 tours. The liability under FLSA is illustrated below:

Hours Worked	<u>FI</u>	LSA OT Threshold	OT i	n Regular Scheo	<u>lule</u>
9 Tours = 216	-	212	=	4	
10 Tours = 240	-	212	=	28	

The City's compensation is considered to be straight time compensation for 216 or 240 hours. Ad additional half time is owed for all hours worked above 212 in the 28 day period.

8. The City's biweekly wage is payment for working a schedule that averages 56 hours per week. The City and union have agreed to an (artificial) contractual hourly rate that is calculated by dividing the biweekly wage by 106 hours.

The FLSA "regular Rate" is calculated using the actual hours worked so it fluctuates. The examples below used an employee whose total compensation is \$1,000 bi-weekly.

28 Day Compensation		Hours Worked	<u>F</u>	LSA Regular Rate
\$2,000	÷	216	=	9.26
\$2,000	÷	240	=	8.33

The City's contractual hourly rate would be a constant 9.43 per hour $(1000 \div 106)$. Note that it is higher than the FLSA rate because it is based on working 53 hours when employees actually work 56 hours.

9. The following illustrations are based on the wage and benefit scenario below:

Employee "A" is an engineer, grade F2 step 8. His contractual bi-weekly rates are as follows:

Base Pay:	\$1243.15	Hourly:	\$11.73	Overtime:	\$17.59
Longevity	\$ 9.23				
College	<u>\$ 11.54</u>				
	\$1263.92				

Acting Pay .80/per hour

The normal FLSA compensation he would receive in a 28 day period would be:

\$1263.92 * 2 biweekly periods or \$2,527.84

Appendix D (page 3 of 5)

Illustration #1 - Employee works regular schedule with no City overtime

Situation 1 - "A" works 216 hours (9 tours)

The City pays "A" \$2,527.84 for working 216 hours and \$11.70 is the "regular rate" under FLSA. The \$2,527.84 is considered to be the straight time payment for the 216 hours. An additional half time payment is owed for all hours above 212. The calculation of the additional overtime liability would look like this:

216 hrs worked - 212 = 4 hours FLSA OT @
$$11.70 * .5 = $23.40$$

FLSA would require us to pay \$2551.24 to "A" which means the City will have to pay an additional \$23.40 to comply with the law.

Situation 2 - "A" works 240 hours (10 tours)

The City pays "A" \$2,527.84 for 240 hours work and 10.53 is the "regular rate" under FLSA. The \$2527.84 is considered the straight time payment for the 240 hours. An additional half time payment is owed for all hours above 212. The calculation of the additional overtime liability would look like this:

FLSA would require us to pay \$2,675.26 to "A" which means the City will have to pay an additional \$147.42 to comply with the law.

Note: in both situations 1 and 2 the employee did not work any overtime under the City contract, so there is no credit towards overtime that can be claimed.

Situation 3 - "A" works 240 hours but is working and paid Captain rank for 120 hours

The City pays \$2527.84 plus acting pay of \$96.00. Since acting pay is included in the FLSA regular rate, the total compensation is \$2,623.84 or 10.93 per hour.

28 hours FLSA OT @
$$10.93 * .5 = $153.02$$
 (additional amount owed)

Appendix D (page 4 of 5)

Illustration #2: Employee works regular schedule plus 24 hours City overtime

Using the same wages and benefits, if "A" works his regular schedule plus 24 hours City overtime his compensation would be as follows:

Base pay, longevity, & college for 2 bi-weekly periods	\$ 2,527.84
Overtime @ straight time rate (excludes premium OT pay of 140.76)	281.52
	\$ 2,809.36

Situation 1 - "A" works 216 regular hours + 24 City overtime hours

The City pays "A" \$2,809.36 for 240 hours work and 11.71 is the "regular rate" under FLSA. The \$2809.36 is straight time compensation for 240 hours. An additional half time is owed for all hours above 212. The calculation of liability under FLSA would look like this:

The city can take credit for the premium overtime pay of 24 hours @ 11.73 *.5 or 140.76 that it paid under the union contract. This means the employee gets an additional \$23.18 as a result of the requirements of the FLSA. This is the difference between the \$163.94 owed under FLSA and the \$140.76 owed under City contract.)

Situation 2 - "A" works 240 regular hour + 24 hours City overtime

The City pays "A" \$2809.36 for 264 hours work and \$10.64 per hour is the "regular rate" under FLSA. The 2809.36 is straight time for 264 hours. An additional half time is owed for all hours above 212. The calculation of liability under FLSA would look like this.

The City can take credit for the premium overtime pay of 24 hours * 11.73 * .5 or \$140.76. This means the employee gets an additional \$135.88 as a result of the FLSA. This is the difference between the \$276.64 owed under FLSA and the \$140.76 paid under City contract.

Appendix D (page 5 of 5)

Illustration C: Effect of Paid Leave on Overtime

Situation 1

"A" is scheduled to work 216 hours in the period, but is on paid leave for 24 hours. Since he only works 192 hours no liability under FLSA occurs. The 24 hours of paid leave are not counted as work time.

Situation 2

If "A" is scheduled to work 240 regular hours but is on paid leave 24 hours. The compensation would be:

Base pay, longevity, education benefit for 2 bi-weekly periods \$2,527.84 Exclusion of pay for non-working time (24 *11.73) -281.52 2,246.32

The "regular rate" under FLSA would be 10.40 per hour (\$2246.32 ÷ 216 hrs worked)

The OT liability is 4 hours @ 10.40 * .5 = \$20.80

Situation 3

If "A" is scheduled to work 216 hours and is sick one tour but also is called in to work 24 hours of City overtime, liability is calculated as follows:

Base pay, longevity, educational benefit for 2 bi-weekly periods	\$ 2,527.84
Overtime @ straight time (24 * 11.73)	+281.52
Exclusion of pay for non-work hours (24 * 11.73)	- 281.52
	\$ 2,527.84

In this example, the City contract would require the City to pay overtime 20 hours sooner than FLSA, so no additional FLSA liability exists.

Owed under FLSA	Owed Under City Contract	Additional FLSA owed
4 * 11.70 * .5 = \$46.80	24 * 11.73 * .5 = \$140.76	0
